

HP Names Zenprise Top New Security Vendor at Protect 2011

Awards program honors emerging vendors for excellence and innovation in security

PALO ALTO, Calif., Sept. 15, 2011 – HP today named Zenprise the top emerging security vendor at its annual cybersecurity symposium, [HP Protect 2011](#).

Sponsored by HP, the inaugural awards program recognizes the most innovative new solutions in cybersecurity, application security and security intelligence and risk management.

With the use of mobile technologies, cloud computing and social media on the rise, cyberthreats have become more sophisticated, persistent and unpredictable. These challenges are fueling innovative approaches to security intelligence and risk management, with many emerging vendors leading the charge.

"The complexity of today's security threats has continued to escalate, and we must stay ahead of these developments to provide customers with access to the latest solutions to combat cybercrime," said Tom Reilly, vice president and general manager, Enterprise Security, HP. "The acceleration of mobile devices and applications within enterprises is introducing new security challenges, and it is exciting to see companies like Zenprise, this year's winner of our top new security vendor award, deliver new innovative solutions to address these challenges."

Zenprise provides mobile device management and security solutions that enable enterprises to confidently secure, manage and grow their mobile deployments as they mobilize their workforce. Supported smartphone platforms include BlackBerry®, iPhone, iPad, Android, Palm, Symbian, webOS and Windows Mobile devices.

"We're thrilled to be recognized by HP as the top emerging security vendor at Protect 2011," said Jayaram Bhat, CEO, Zenprise. "Zenprise is committed to providing the solutions that enable companies to protect their mobile enterprise."

At this year's symposium, start-up vendors featured their innovative solutions in the HP Protect CyberSecurity Hall and were given the opportunity to present their solutions to the HP CISO Customer Advisory Board. Conference attendees and advisory board members were able to vote for the vendor that exemplified the most excellence and innovation in security.

HP Protect 2011 is being held at the Gaylord National Resort and Convention Center in Washington, D.C., from Sept. 11 to 14. As one of the largest gatherings of security and compliance professionals, the event welcomes more than 2,000 attendees to participate in advanced training sessions, hands-on immersion programs and in-depth presentations with real-world practical solutions and best practices.
